DEFINITIVE TECHNOLOGY™

Dymension | DM30

Flagship center channel speaker with
integrated subwoofer and bass radiators

[PRODUCT INFORMATION SHEET](#)

Dymension | DM30

The Dymension™ DM30 flagship center channel speaker combines a five-driver array with an integrated subwoofer and 3XR-optimized bass radiators to deliver full-range performance with superior vocal clarity and maximum bass impact. It's the ultimate centerpiece for immersive home theater and music systems.

Maximum-Performance Center Channel

SPECIFICATIONS	
Dimensions (H x W x D)	7.5 in. x 31.5 x 15.9 in. 190 x 800 x 403 mm
Weight	54 lbs (24.5 kg)
Color	Black
Grille Material	Acoustically transparent black cloth (not removable)
Tweeter	(1) 1 in. aluminum oxide dome
Midrange/Midbass	(4) 5.25 in. BDSS with Linear Response Waveguide
Subwoofer System Driver Complement	(1) 8 in. subwoofer (2) 8 in. passive radiators
Frequency Response	36 Hz–30 kHz (-10db) 41 Hz–23 kHz (-3db)
Nominal Impedance	6Ω (8Ω compatible)
Sensitivity	93dB (2.83V/1m)
Recommended Amplifier Power Rating	50–300W
Intelligent Bass Control	Variable +12dB/-15dB

KEY BENEFITS

Advanced Five-Driver Array

Four 5.25" BDSS midrange woofers and a 1" aluminum oxide tweeter deliver ultra-clear vocals with uncanny realism.

Built-In 8" Powered Subwoofer

An integrated 8" powered subwoofer delivers clean, detailed bass that perfectly blends with mids and highs, anchoring voices and effects with rich, full-range sound.

3XR Architecture with Dual Bass Radiators

3XR™ Architecture—introduced in our flagship Descend Series—combines a subwoofer and two passive radiators to produce huge, impactful bass that's unrivaled in a center channel speaker.

BDSS System and Linear Response Waveguide

Midrange woofers feature Definitive's Balanced Double Surround System™ (BDSS), which improves excursion and provides superior midrange detail. Our patented Linear Response Waveguide™ extends off-axis dispersion for total sonic immersion.

Patented Intelligent Bass Control

Sophisticated digital processing seamlessly blends subwoofer output with mids and highs to provide powerful deep-bass performance without impacting midrange clarity.

Timbre-Matched

Consistent sound across other Definitive Technology series gives you the flexibility to mix and match Dymension™, Dymension CI, and Mythos speakers to design your dream home theater and whole home system.

PRODUCT FEATURES

- Five-driver array for rich, full-range center channel sound
- Built-in powered subwoofer for deep, seamless low end
- Aluminum oxide tweeter brings crisp highs and ultra-clear speech
- BDSS™ woofers deliver superior midrange detail
- Linear Response Waveguide™ extends dispersion
- 3XR™ Architecture with passive radiators delivers max bass impact
- Intelligent Bass Control for smooth integration
- Acoustically transparent, black grille cloth virtually disappears into the room
- Timbre-matched with Definitive Technology speakers
