NOTE: Download all your support materials and tools in one place.

1. Go to: <http://www.digital-watchdog.com/resources>
2. Search your product by entering the part number in the **'Search by Product'** search bar. Results for applicable part numbers will populate automatically based on the part number you enter.
3. Click **'Search'**. All supported materials, including manuals and quick start guide (QSGs) will appear in the results.

INSTALLATION

- 1 Use the angle mount to mark and drill the necessary holes on the mounting surface.
- 2 Secure the angle mount to the mounting surface using screws and wall anchors. These are not included with the accessory.
- 3 Pass wires through and make all necessary connections to the camera. See the camera's QSG for more information.
- 4 For the installation, remove the camera's top cover by rotating it counterclockwise.
- 5 Attach the camera's bottom to the mounting bracket with the screws included with the camera.
- 6 Adjust the camera's angle and attach the upper case by rotating it back into place.

NOTE: Do not touch the lens when handling the camera module.
