WALL MOUNTED

Sound with Style and Strength

Introducing the new ELAC Muro and Muro Pro Outdoor/Indoor Speaker, where modern design meets exceptional versatility.

Featuring a clean, sleek profile with no large visible knobs, this speaker seamlessly integrates into any environment, indoors or outdoors. Engineered for durability, it boasts an IP66 rating to withstand the elements, while removable port plugs allow you to transform its design into a ported configuration for enhanced bass performance when weather conditions permit. With its refined aesthetics and innovative functionality, the Muro Outdoor/Indoor Speaker is the perfect blend of style, adaptability, and premium sound quality.

PRODUCT DETAILS

Custom Design

ELAC Muro Outdoor/Indoor Speaker: a sleek, IP66-rated design offering weatherproof durability, adaptable bass performance, and premium sound, perfect for any indoor or outdoor space.

Custom Woofer

Custom polypropylene (PP) woofer, designed for outdoor IP66-rated speakers to deliver powerful, weatherproof performance in any environment.

Custom Tweeter

Enjoy crystal-clear highs with our 1" soft dome tweeter, engineered for outdoor IP66-rated speakers to provide precise, weatherproof audio performance.

ELAC

FEATURES

MURO SERIES

MODERN DESIGN • VERSATILITY

● **Watertight Wire Grommet** – Features a durable rear plastic cover that conceals wiring and provides IP66-rated protection, ensuring a clean installation and robust weather resistance.

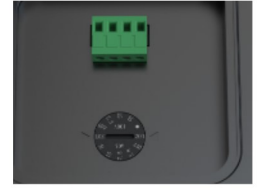

● **Flexible Wall/Ceiling Mount** – The Muro outdoor speaker offers exceptional versatility and flexibility with its supplied bracket, allowing seamless vertical, horizontal, wall, ceiling, or corner mounting for any installation need.

● **Sleek and Unique Design**
– With no large knobs and internally mounted brackets, the clean design of this speaker is both stylish and functional. The guided shoulder mount system ensures effortless installation while maintaining a streamlined, modern look that stands out in any setting.

● **Adjustable 70/100 Volt Tap** – easily select the desired wattage to optimize power levels for your speaker in distributed audio systems

● **Removable Port Plugs** – Designed for IP66-rated outdoor use, this speaker features removable port plugs that allow you to switch between a sealed configuration for maximum weather resistance and a ported configuration to enhance bass performance when conditions permit. Transform the design into a ported configuration for enhanced bass performance when weather conditions permit.

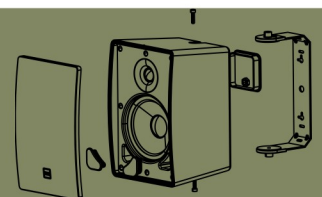

● **Adjustable Angles** – Shoulder mount has markings in 15 degree increments facilitating alignment of multiple speakers.

● **Rotating Logo** – The logo is designed to rotate, allowing seamless mounting in either vertical or horizontal orientations.
