Open Frame Rack 42U for 19 inch Network and Server Equipment in an Accessible, Heavy-Duty Rack-Mount Solution

The 42U 19" 2-Post Open Frame Network Rack from Intellinet Network Solutions is your simple, cost-effective way for housing IT equipment in secure environments that don't require a lockable rack solution. Its open-frame design offers unparalleled accessibility and superior airflow for optimal heat dissipation.

Unrestricted Access

The open frame allows easy access to your equipment from all sides, facilitating effortless installation and maintenance.

Maximum Airflow

The open design ensures efficient heat dissipation, keeping your equipment cool and running smoothly.

Robust Construction

Built with 2 mm (0.08 in.) thick, cold-rolled SPCC steel and finished with a durable powder coating, this rack is engineered for strength and longevity. With a maximum of 770 lbs. (350 kg), this rack supports even the heaviest of equipment. The base can be bolted securely to the floor.

Comprehensive Rackmounting and Cable Management Kit

The packaging includes 40 M6x12 screws, 40 M6 cage nuts, and 40 M6 plastic washers for hassle-free mounting of your devices without additional accessory purchases. Plus, 12 plastic rings, attachable to the posts, keep your network cables neatly organized.

Space-Efficient Shipping

Its flat-packed shipping condition minimizes space requirements and reduces freight costs, making delivery and storage more convenient.

Lifetime Warranty

Enjoy peace of mind with a lifetime warranty, ensuring your investment is protected.

Features:

- Simple and cost-effective solution; great for testing IT equipment and for secure environments that do not require a lockable network cabinet
- Open frame for easy access to equipment from all sides and for maximum airflow with efficient heat dissipation
