

# Layering Options for Expanse

Layering transforms your video wall into a dynamic hub, letting you view multiple inputs simultaneously. Whether it's sports, presentations, or entertainment, layering gives you the flexibility to showcase content in layouts that fit your space and style—all in stunning, high-resolution clarity.

## Competitive Statement

Expanse and Just Video Walls are redefining what's possible with MicroLED displays. We're the only brands offering **advanced layering** options built into our processing systems, letting you seamlessly integrate multiple inputs for endless viewing possibilities. No add-ons, no limitations—just unmatched versatility designed to elevate your experience.

# LUNAR WALLS

---

## 1.0 Expanse (16:9)

**1x HDMI 2.0 + 4X HDMI 1.3** 4x4 - 5x5 - 6x6 - 7x7 - 8x8 - 9x9 - 10x10 - 11x11 - 12x12

- 1 Big TV: Enjoy a single, massive display for immersive viewing.

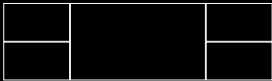

- 4 TVs in Quad: Split the wall into four equally-sized screens, perfect for multitasking or displaying multiple feeds.

---

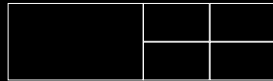

## 2.0 Expanse (32:9)

**2x HDMI 2.0 + 4X HDMI 1.3** 6x3 - 8x4 - 10x5 - 12x6

1 Big TV and 4 Small TVs - Variation 1

- Big Center TV + 2 Small TVs on Each Side: A balanced, panoramic view ideal for presentations or gaming.

1 Big TV and 4 Small TVs - Variation 2

- Big TV on the Left + Quad TV on the Right: For when you need focus and variety side by side.

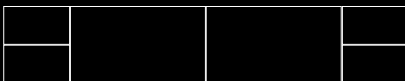

2 Big TVs

- 2 Big TVs: Two large displays positioned side by side for a dual-feature experience.

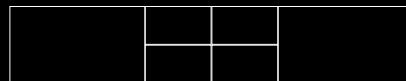

---

## 3.0 Expanse (48:9)

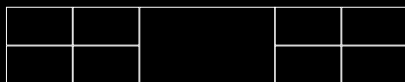

**3x HDMI 2.0 + 8X HDMI 1.3** 9x3 - 12x4 - 15x5 - 18x6

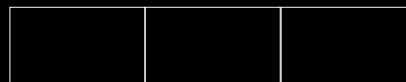

• 2 Big TVs Centered, 4 Small TVs Flanking Left and Right: A balanced layout for maximum content visibility.

• 4 Small TVs Centered, Big TVs Flanking Left and Right: Centered focus with big screens on the edges for support.

• 1 Big TV and 8 Small TVs: A central big TV with quad screens flanking it on both sides for maximum versatility.

• 3 Big TVs: Three evenly spaced big TVs create a stunning, uniform layout for major events or multi-feature viewing.
