MHX-LHDME15	15M
MHX-LHDME17	17M

PRODUCT OVERVIEW

Deliver SK or even 4K with a great performing cable. The MHX passive copper HDMI® cable provides 48Gbps bandwidth up to 2 meters and 24Gbps bandwidth at distances up to 7.5 meters (and at lengths of up to 17 meters when used with the HDM-GA1 or HDM-GA2 Gigabit Accelerator). All MHX cables come in a CL-rated jacket to provide behind-the-wall installation at an economical price without compromising video and audio performance. These cables offer a premium quality abrasion-resistant, high-temperature PVC jacket for maximum durability, as well as low loss foam-skin polyethylene dielectric for maximum signal transfer and superior picture quality. The HDMI® ethernet channel allows you to support a wide range of IP-enabled devices without the clutter caused by the additional network cables, eliminating the need for separate ethernet cables to enjoy high-speed, bi-directional networking with speeds up to 100 Mb/sec. All MHX Series cables are DPL certified and come with a lifetime warranty.

- Supports 4K@60Hz HDR
- 24K Gold plated Grip-Lox connector for securing cable to source and display devices
- Increased tensile pull strength without the risk of damaging connected equipment
- Multi-layer shielding
- Audio return channel (ARC/eARC)

* 24Gbps achieved with use of the HDM-GA1 (sold separately)
