

The Bullnose Wall Plate is a unique cable management solution. Its hinged design provides four distinct configurations for flexible routing of low voltage cables inside the wall—just turn and snap the scoop for your preferred setup.

## Features & Benefits

Conceals cables inside the wall behind flat panel TV, amplifier, or other audio/video devices

Hinged scoop allows for flexible routing of low voltage cables into and out of the wall

Ideal for cables with large A/V connectors

Conceals up to six cables

Available in White, Black
