

In-Wall TV Power and Cable Management Kit **SKU: SA-IWP1-W1**

Extend power from an existing wall outlet to behind a wall mounted TV without modifying current electrical wiring. Provide power to more than the TV - receptacles support many plug types, including right angle plugs making it easy to power up 3rd party devices like Apple TV, Roku, soundbars and more. The In-Wall TV Power and Cable Management Kit is compatible with any TV brand and easily expandable.

- Easily Run power and cables behind the wall without the need for an electrician
- Works with any TV, compatible with all TV power plugs - even right angle cords
- Powers multiple devices- hook up digital TV adapter, cable box, sound bar or streaming devices such as Apple TV or Roku
- Easily run power and cables behind the wall and out of sight for a clean sleek entertainment space
- Kit includes power output module with 6ft prewired cord, power input module, drywall bracket, 6 ft power cord, cut out template with complete instructions
